Regain lost health.

To short out the electrical fence, Eliza will have to collect all five parts of a medallion.

Filling up their time between adventures, Eliza and her family have amassed quite a number of mini—adventures you can play. Using the Control Pad, run Eliza over to the game you want to play and then press the A Button to start playing!

Donnie Helps Out

Help Donnie guide the baby elephant through a bush maze to find the elephant's family at the other end. The elephant will always move according to the arrows on the ground but a lot of these arrows are mixed up. If he's left on his own, this poor elephant will just end up running in circles!

You will have to get Donnie to run ahead of the elephant and redraw the arrows so that they point in the right direction for the elephant to go.

While holding down the A Button, use the Control Pad to turn the arrow in a new direction.

Jigsaw Puzzle

Eliza and her friends have gotten their hands on a jigsaw puzzle! After selecting the picture you want (using the Control Pad), help Eliza find the right puzzle-pieces to reassemble the picture.

The A Button allows you to pick up and drop pieces. The B Button allows you return your puzzle piece to the selection area. Use the Control Pad to move the

cursor over the puzzle area. When selecting a puzzle piece, press up and down on the Control Pad to cycle through the list of puzzle pieces you can choose.

Rock Painting

Help Eliza paint the picture so it matches the original painting. Eliza starts this adventure looking at a picture with a paintbrush in hand. Next to her are 16 pools of different colored paints and a large picture.

By pressing the A Button While on top of one of the two arrows at the right—hand bottom of the screen, you can change the picture if you'd like.

Once you've settled on a picture, you can begin painting your image. You do this by taking your paintbrush to a pool of paint and pressing the A Button. Your paintbrush will then be the same color as that pool of paint. You can then use that paintbrush to fill in sections of the picture with color Press the A Button again to lay down that color in the area the paintbrush is over. If you'd like to see what a correctly colored picture looks like, move the paintbrush up to the "?" and press A Button. The picture will suddenly burst into color but for only a few seconds. Once the color fades away, you can continue painting the picture. If you are finished with the painting, and have painted it correctly, a checkmark will appear on the painting to let you know it has been completed correctly. The "X" mark is to exit out of the level at any time.

There's also an eraser if you ever want to erase any paint. The B Button will allow you to pick up paint from anywhere on the screen.

Swimming with the Dolphins

Eliza has decided to race with the dolphins and catch some pretty starfish! Help her catch as many starfish as she can.

Look out for the shark! If he touches you, you'll automatically swim away from him and up to the surface.

Sliding Tites

Eliza is having fun putting a mixed-up tile puzzle back together. There are three different levels you can choose, but you may only choose the harder levels once you've mastered the easier ones first. You can select the 'level' of picture by moving Eliza's hand over to the green stones on the left. When you're done choosing a picture, move the hand over the flag on the right side

of the screen and press the A Button to shuffle the puzzle. You can move the sliding tiles by moving Eliza's hand on top of a tile and pressing the A Button. This will slide appropriate tiles that are near the free space on the tile board.

Car Race

Race the Commvee against the poachers' car to reach the finish line. This game is a card based game and you move the Commvee by selecting one of six cards in the field below. Of the cards shown, there are three different types of cards. These are:

Distance Cards: These numbered cards indicate the amount of miles your vehicle will travel.

Damage Cards: These cards can be used to cause car damage to your opponent. There are four types of damage cards: the Flat Tire, Overheating, Blown Engine, and the Empty Gas Tank. If you receive an Overheating Card, you lose a turn.

Repair Cards: These are used whenever your car gets damaged. They are the Wrench (when you've got a Blown Engine.), the Tire (which fixes a Flat Tire), and the Refill (which takes care of an Empty Gas Tank). If you receive an Overheating Card, you lose a turn. There is no Repair Card for this.

Use the Control Pad to move between cards and the A Button to select the card you want to play.

Once you have selected a card, your opponent will then select a card as well. Selected cards will then be replaced with a new card for the next round. This continues until someone reaches the goal of 500 miles.

PLAYING WITH OTHERS (MULTI-PLAYER GAMES)

If you have a Game Boy® Advance Game Link® cable, you can use the Multi-player game to play The Wild Thornberrys Movie with your friends! Here are the games you can play against other competitors:

Lebra Race

You and your friends (up to 4 players) are racing zebras down in the canyons. Go ahead and try and get to the finish line before your friends.

Labyrinth

You and your friends are wandering a maze together.

As you move, collect the medallion pieces and get to the Shaman Mynyambo first to win. Press the A Button to plant quick growing bushes to block your opponent.

PLAYING WITH OTHERS (MULTI-PLAYER GAMES)

Crab Racing

You and your friends have decided to race crabs down by the beach. The only problem is the silly things keep getting lost or falling into crevasses. To help the crabs out,

you must use stones to help the crabs around the obstacles and to the ocean. The first crab that makes it to the water wins.

The A Button is used to pick up stones. The B Button is used to drop stones.

5057

TIP

Arrows set on the stones will show you which way the crab will travel after it hits the rock.
